When to use this form

Aged care web services

To register for aged care web services, the provider will need a Provider Digital Access (PRODA) organisation account and Business to Government (B2G) devices registered in PRODA.

Each device used to conduct transactions with Services Australia through aged care web services should be registered and activated under the Provider PRODA organisation Registration Authority (RA) number.

To conduct transactions through aged care web services, the provider can only use a software version approved by Services Australia with a valid software integration number (provided by Services Australia to the software developer).

For more information about a PRODA organisation account, including registration of devices, go to servicesaustralia.gov.au/proda
